Ward Five Bolters

Some days since an anonymous communication appeared in the Bargor News asking for a space in which to explain the reason why a bolting ticket was placed on the ballet in Ward F.ve against Bangor and Aroustook Railway. the regular nominees of the Republican party. That communication has since been published in circular, form and distributed throughout the ward over the signatures of said bolting candidates. It is addressed to the "Editor of the News" Just as it was when it appeared as an back;

ancoverous production. The principal feature of this so-called "explanation" is to the effect that as Mr. Cummings was entitled "lanceordance with the time-honored custom to be promoted to a position in the upper board' he is junified in boiling the regular ticket because of his fallurs to receive this promotion at the hands of the people in the ward. If this is to be accepted as Mr. Cummings' justification how does, it aflect Me ars. Canney, Haskell and Patterson? They were not cardidates for any heart of Arocatook County. This has in position on the !ticket, hence there was o violation of any "time-honored custom" to their case. More than that it is reported that Mr. Canney went into the aucus with the avowed purpose of violating this same custom, having his pockets on the City Committee to be used in case Mr. Committee was nominated, full of tallots for himself for a position regardless of the fact that Col. Steteon , had served the ward in that espacity for one year and that the same "time-honored cus.om" invoked in the case of Mr. Communes was causily applicable to the Beal singles out for adversal criticism tember of the City Committee. If this bave united and with their own money report is correct, and it has never been deuted, I appears that the Cappey was simply waiting to "violate the very custom which he has etted in justification of the boltiar inoverent."
